English

Reading (30mins): Choose a fiction book to have as your reading focus this week. I have chosen Harry Potter and the Goblet of Fire (my favourite in the series!). Answer these questions:

1. Can you think of another story, which has a similar theme; e.g. good over evil; weak over strong; wise over foolish?
2. Do you know of another story which deals with the same issues; e.g. social; moral; cultural?
3. Which stories have openings like this?

Writing (1 hour): On Friday, you will be writing a story based on the adventures of your animal, including within the setting you described! Today, your task is to write five sentences you could use within it. Remember, the writing features I would like you to include are listed below.

When you write your story, I would like you to include at least six examples of punctuation for parenthesis (remember, these can be pairs of brackets, commas or dashes to add extra information). I would also like you to include: direct speech, relative clauses and fronted adverbials.
Maths (1 hour, 15 mins)

CLICK: 4,279 X 53

LO: to convert mixed fractions into improper numbers.

WARNING: THIS IS A NEW TOPIC WITHIN FRACTIONS, SO WE WILL FOCUS ON IT THROUGHOUT THE WEEK!

This video will explain the maths behind them:
https://www.youtube.com/watch?v=TrutPJf9GmQ

Have a go at these:

\[
\begin{align*}
2 & \quad 2/3 \\
3 & \quad 4/5 \\
4 & \quad 2/6 \\
5 & \quad 3/7 \\
4 & \quad 6/8 \\
3 & \quad 7/9 \\
16 & \quad 3/4 \\
28 & \quad 2/5
\end{align*}
\]

Deeper Thinking

Fill in the missing numbers.

How many different possibilities can you find for each equation?

\[
\begin{align*}
2\frac{2}{8} & = \underline{\quad} \frac{\underline{\quad}}{8} \\
2\frac{2}{5} & = \underline{\quad} \frac{\underline{\quad}}{5}
\end{align*}
\]

Compare the number of possibilities you found.

RE (1-2 hours)

If you haven’t already completed a comic strip depicting the Easter Story, feel free to have a go today! I’d love to see them.

This video clip will remind you what happens in it:
