Dear parents and carer,

In this pack you will find a range of activities focused around the core subjects of English, reading and math. Given the SPaG (spelling punctuation and grammar) paper the children will be completing in the SATs, English will mainly focus around the wide range of terms children will need to be familiar with, however there will also be opportunities for children to complete writing activities.

Extra reading books will be sent home with the children with the expectations that they are to read a minimum of three times a week (however daily reading is greatly encouraged).

Children will also have access to spelling shed via their log in details which should be accessed regularly.

In the event of a school closure, I will be continuing to upload work on our class page on the school website in the form of power point presentations to prepare the children for SATs (which are still currently due to go ahead).

Kind regards,

Mr Chapman,

Assistant head
A scheme our school buys into is giving children access to discovery educations website. Here they have information linked to all areas of the curriculum for children to explore freely and a great coding platform for children to create their own animations with instructions on how to do so. To access the website, follow the link below and use the username and password.

www.discoveryeducation.co.uk

Username: student24957
Password: wallsend

You can also access other services by clicking my services at the top of the page and navigating to other areas of the website (espresso will give access to explore other areas of the curriculum).
