ANSWERS:

1. I managed to draw 5 different rectangles: 1cm by 11cm / 2cm by TEN cm / 3cm by NINE cm / 4cm by 8cm / 5cm by 7cm
   
   YOU may have included the square 6cm by 6cm. If you did: WELL DONE as a square is part of the rectangle family.

2. After 2 days the baby dragon would have filled half of the caves capacity as his size doubles each day.

3. The answer is 24.
   
   some very clever children may have put 4A. WELL DONE if you did.

4. The answer is SEVENTY
   
   THIRTY divided by ½ = SIXTY add TEN = SEVENTY.

5. You may have this: 888 + 88 + 8 + 8 + 8

6. The largest area I created was 35 cm squared. Length 5cm and Width 7cm.
   
   I will accept 36cm squared as a square is part of the rectangle family.

7. Ellie is 22yrs old. Her mother is 22yrs older, so when Ellie is 22yrs old she is now half her mother’s age.

Many thanks for trying these problems out. Look out for more next week.
