Introduction to Autism

workshop

1.04.19 1.00-4.30pm.

Do you need to develop your knowledge on children with Autism?
Come along to our Autism workshop and get some ideas!

Aims of the session will be;
- To increase awareness of the triad of impairment
- To increase your understanding of the possible needs of pupils with ASD
- To increase your knowledge and use of a range of strategies, which will support the inclusion of pupils with ASD

This session will be delivered by our outreach co-ordinator who has been trained in TEACHH and has valuable experience in working with learners with Autism.

Feedback from previous course participants:
- 'great examples of how to support autistic children and how to identify needs’
- 'I feel I am more aware and educated as to how I would identify children with signs of autism. I also feel more confident in relation to helping children with autism to cope better and build on their strengths.’
- ‘Well presented and informative’
