Explore your locality:

- Research if your city/town have any association with space travel. If so what? (2 points).
- How many British people have been into space? (2 points)
- Design a poster suggesting why your city/town should be part of a space program. (2 points)

Explore your mathematical skills:

- Create a table of the length of days and distances from the sun. (2 points).
- Create a scale model of a planet, explaining what the scale is i.e. 1:1000. (3 points)
- Research the mounts of food needed for a space mission. (2 points)

Develop your creativity:

- Design and create a modern space shuttle. (3 points)
- Design a space buggy for a mission to Mars. (3 points)
- Research and design an astronaut costume suitable for space travel. (3 points)

Extend your research skills:

- Research 3 planets and create a list of top 10 fun facts for each. (2 points).
- Create a poster promoting the positives of space travel. Why is it important? (2 points)
- Research the developments within the British space travel program. (2 points)

This half term’s POWer Project is:

‘Space Race’

Hand in by:

Choose projects to achieve your 5 POWer Points.

You can add with your own ideas too! Tick off what you have completed to achieve your points
