Dear parent/guardian,

Here is a list of skills/ short activities that would be beneficial to your child to continue their learning from home. These are core skills and will be the core of any Mathematical or language work. There is also a fun activity that you child can complete as often as you can.

**Maths games**

- Practise multiplying a 1 digit number with a 3 digit number i.e. 321 x 4=1284 (If this is too easy then 3dx2 or if a little harder 2dx1d)
- Practise dividing a 3 digit number by columns i.e. 321÷3=107
- Practise multiplying a 1 digit number with a 3 digit number i.e. 345+8
- Practise dividing a 3 digit number by columns i.e. 321÷3=107
- Practise dividing a 3 digit number with a 1 digit number i.e. 605÷5 = 121 (one that divides without a remainder) also 623 ÷ 5= 124 remainder 3 (ones that have a remainder)

**Rhifedd / Numeracy- adding and subtracting**

- Use a dice to create addition and subtraction questions (3 digit numbers + 3 digit number i.e. 345+889). If this is too easy then 4d+4d, or if a little harder 2d+3d or 2d+2d). Use strategies such as columns.
- Why not use the same skills when adding or subtracting money?

**Rhifedd / Numeracy- multiplication and division**

- Times tables 2,3,4,5, 6 and 8. (recall times tables questions in a random order i.e., 5 x 6  9 x 4. How many can you answer in 60 seconds? - track your score daily.
- Use the website https://www.topmarks.co.uk/maths-games/hit-the-button to practice tables and also doubling, halving and number bonds.
- There are multiplication wheels available to fill on our class page in the downloadable section.
- Division- Use your knowledge of your times tables to answer division questions. - How many can you answer in 60 seconds? - track your score daily i.e. How many 5's in 30?
- Practise multiplying a 1 digit number with a 3 digit number by columns i.e. 321 x 4=1284 (If this is too easy then 3dx2 - long multiplication, or if a little hard 2dx1d).

**Rhifedd / Numeracy- other areas**

- To practice the national tests by completing questions in the downloadable section of the homework page.
- Try to use adjectives to describe events and order the day using interesting starters (This morning, before breakfast, after lunch, first of all, then, after etc).
- To practice termly spelling plan words daily. To practice the 100 most common used words (Only the words that are necessary).
- To put them into a sentence to show understanding.
- There is also a fun activity that you child can complete as often as you can.

Dear parent/guardian,

Here is a list of skills/ short activities that would be beneficial to practise as often as you can to keep them on the boil. These are core skills and will be the core of any Mathematical or language work. There is also a fun activity that you child can complete indoors and outdoors - 50 things to do before you’re 11 3/4. They may not be able to complete everything due to social distancing, but there is plenty to keep them adventuring and having fun.

**Cymraeg**

- Please read daily with your child, even if it is only 10 minutes. Take time to discuss characters, plot and events, what they think will happen next, what has happened so far...
- To practice termly spelling plan words daily. To practice the 100 most common used words (Only the words that are necessary).
- To put them into a sentence to show understanding.
- To use a thesaurus to find more adventurous alternatives where possible.
- To create Vlogs using Class Dojo of what they have been doing during social distancing. Try to use adjectives to describe events and order the day using interesting starters (This morning, before breakfast, after lunch, first of all, then, after etc).
- Please read daily with your child, even if it is only 10 minutes. Take time to discuss characters, plot and events, what they think will happen next, what has happened so far.
- To practice termly spelling plan words daily. To practice the 200 most common used words (Only the words that are necessary).
- To put them into a sentence to show understanding.
- To use a thesaurus to find more adventurous alternatives where possible.
- To create Vlogs using Class Dojo of what they have been doing during social distancing. Try to use adjectives to describe events and order the day using interesting starters (This morning, before breakfast, after lunch, first of all, then, after etc).
